

American Veterans Care Connection

**GET YOUR CLIENTS
THE CARE THEY
NEED QUICKLY**

FAST TRACK PROGRAM

WHAT WE PROVIDE

Home care services can make the difference in allowing veterans and surviving spouses to remain living at home. But what happens when they need your help fast? AVCC has developed the Fast Track Program to help those veterans in these problematic situations.

When you partner with AVCC, you will be able to help veterans and surviving spouses pay for home care services quickly, so they can continue or start getting the help they need immediately.

HOW IT WORKS

Our program helps clients submit an application for veterans benefits in a significantly shorter period than the industry norm.

1. Every client is screened on their initial call, so we can verify eligibility for the AVCC fast track program right from the beginning.
2. If the client is eligible, we send you a packet to be completed at the client's home.
3. AVCC will compensate you once a veteran is approved.
4. We take care of everything else – we make sure that the application is ready to submit to the VA within two weeks so veterans can begin receiving your attention as soon as possible
