MAKE THE

CONNECTION

ABOUT US

AVCC has successfully mastered the process of applying for pension – with aid and attendance benefits at the Veterans Benefit Administration – so veterans and surviving spouses across the nation can receive money to purchase home care services. Let our staff complete a screening and application. Every home care provider should have access to this funding. Let us take care of the process for veterans and surviving spouses in your community, and you can provide the home care. It's that simple.

WHY DO HOME CARE COMPANIES WANT TO WORK WITH US?

HOW ARE WE DIFFERENT?

Our competitors offer a loan program that is often confusing to veterans, surviving spouses, and home care providers. For those applying for VA benefits, AVCC offers several programs for veterans and surviving spouses, without the need to take out a loan.

FAST TRACK PROGRAM

AVCC has developed a fast track program that can help a client apply for veterans benefits in a shorter period of time. All clients are screened on the initial call to check for eligibility for this program. If a client is eligible to participate in the fast track program the home care provider will be sent a packet to complete at the client's home. The provider will be paid by AVCC once a veteran is approved. AVCC takes care of the rest. The fast track program enables clients to get an application ready to submit to Veterans Administration in two weeks. This means clients can start home care services faster.

SERVICE OFFERINGS:

AVCC helps veterans and surviving spouses navigate the process of obtaining money and paying for home care services through the Department of Veteran Affairs. Our process includes:

- 1.** Completing a screening and application for pension (with aid and attendance benefits) through the VA
- 2.** Monitoring the application process and completing all VA paperwork
- 3.** Arranging for the start of home care services: meal preparation, bathing, help with dressing, transferring to and from bed, shopping, light housekeeping, laundry, medication reminders, companionship and transportation
- 4.** Continued monitoring to achieve quality home care services
- 5.** Tracking for changes that affect VA eligibility, so veterans and surviving spouses remain compliant and qualified for VA benefits

“ We just received the good news on Tuesday, dad got his approval. I can't thank you enough for your help. It has meant a lot to us and we certainly could not have done this without you! ”

- Michael W., son of client

 OUR NATIONAL
PARTNERS

CASE **STUDY**

Veteran Frank Booth and his wife, a couple married over 60 years, were in serious need of home care services and going into debt paying for medical expenses. Through the help of AVCC, Frank and his wife were able to receive the maximum benefit allowable of \$2,169.00 per month and obtain a lump sum retro benefit of \$22,663.00 to reimburse him for past medical expenses.
